Presenting at Vistas Seminars and Organizing an Entire Vistas Course

The Curriculum Committee is offering this free one-time session to encourage members to become active presenters by sharing with them some tools and strategies for developing successful presentations and courses.

This course mainly consists of a panel discussion where the presenters will discuss how to make a good Vistas presentation, including selecting a topic, knowing the Vistas audience, using easily-available information sources, options for organizing presentations and whole courses, and many other issues.

The panel encourages questions and comments from the audience on any relevant topic.
