IT'S ABOUT TIME
PRESENTER: DAVID BISNO, M.D.

Four Mondays, 9:30am-12 Noon

March 15, 22, 29 & April 5

Goleta Library

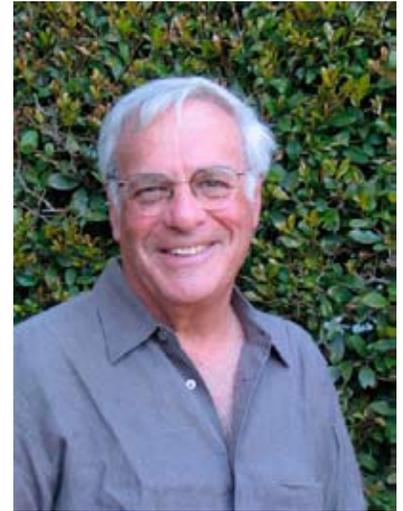

500 North Fairview

(Please park in church parking lot adjacent to library)

We cannot see, hear, feel, smell or taste it but it's the most valuable thing we have. It is everywhere and yet while it occupies no space it is the fourth dimension. We cannot have it, hold it, put it in a container or get rid of it, yet we do everything in our power to enjoy more of it. We can spend it, save it, waste it or kill it but we can't destroy it. We have measured it with extraordinary precision but we can neither say what it is ...nor escape it.

Nothing is more fundamental to our nature than the observation of time and what we choose to do with it. While our subject for this Spring is invisible and indescribable it is also universally compelling; we will find its study fascinating. But wait a minute. "It's About Time" will include entertaining lectures and spirited discussion. We will find the time to include the associated astronomy, philosophy, psychology, literature, music, biology, physics and the accomplishment of geniuses.

Understanding that time flies but waits for no man, I can suggest two fascinating paperback biographies: Dava Sobel's *Longitude* and Clark Blaise's *Time Lord*. Fay and I look forward to the best of times with you on four Monday mornings in March and April. For graduates of the course who have the time, Fay and I will be offering a guided tour of haute l'horlogerie in the Valle de Joux of Switerland followed by three days of culinary instruction in Lausanne.

ENROLLMENT FORM: *It's About Time*

VISTAS Members: \$40 Non-Members \$60

Ammount Enclosed \$ _____

David Bisno, M.D., retired ophthalmologist with degrees from Harvard, Dartmouth and the Washington University School of Medicine has been an enthusiastic discussion leader for 15 years within lifelong learning institutes around the world. Most recently in Cambridge, England, and Salzburg, Austria, David and his wife, Fay, return to us from the East Coast eager to, once again, engage scholars with a new, fascinating and provocative topic.
